

First Workshop on Electron Devices 2016 (WED'16)

under IEEE EDS UP chapter

Department of Electronics and Communication Engineering
Indian Institute of Information Technology Allahabad

November 19, 2016

Venue: 5055, Computer Center-3

Website: <https://ieewed.iita.ac.in>

About the workshop: This IEEE Workshop on Electron Devices 2016 (WED'16) is the first workshop being organized by the newly formed IEEE EDS UP chapter meant to promote students, young professionals and women in science and technology. The focus of this workshop is to discuss the recent advancements in electron devices with their well-recognized and promising applications. It will cover the topics range from device modeling to basics of emerging electron devices and their potential applications as per the current requirements. The workshop WED'16 will consist of invited talks in the related areas by experts from IITs and other premier institutes and research centres of the country as well as representatives from industry. It will provide an opportunity for participants to discuss various aspects of emerging electron devices, disseminate work in progress, and promote new ideas in the field.

Registration:

Categories	Early Bird Registration Discount (Valid till October 30, 2016)	Registration Charges (After October 30, 2016)
Professionals (IEEE Members)	Rs. 1200	Rs. 1500
Professionals (Non-IEEE Members)	Rs. 1500	Rs. 1800
Students (IEEE members)	Rs. 700	Rs. 1000
Students (Non- IEEE members)	Rs. 900	Rs. 1200
Delegates from Industry	Rs. 2500	Rs. 3000

Applicants are requested to visit the website for registration details <https://ieewed.iita.ac.in>
